ARIANNE FOKS: ATTEMPT TO COVER THE SKY

Jun 05, 2015 – Jul 25, 2015

La planète Mars, 2015, Courtesy of Galerie E.G. P, Paris

Galerie E.G.P is pleased to present the first solo show of artist Arianne Foks. This is the first time that the artist's drawings, collages and paper works will be exhibited.

Arianne Foks, born in 1982, is a multidisciplinary artist based in Paris and Brussels. Her primary medium is performance art but she also works with writing, drawing and photography. For her performances and drawings, Arianne Foks uses actual everyday life or its fantasized version, in order to question reality. Her performances challenge our worldview by creating situations where the participant must face certain choices - for instance, choosing between "dying" or "eating", or accepting to write down his or her potential year of death in exchange of a pineapple. These at once absurd and concrete questions try to transform us; these poetic metamorphoses blur our limits between personal realities and fictions.
